---

## Education

**B.K. Birla College of Arts, Science & Commerce, Kalyan,**

MSC in Information Technology (Cloud Computing)

June 2022 – July 2024

- CGPA: 9.00/10.00

BSC in Information Technology

June 2019 – July 2022

- CGPA: 8.97/10.00

## Skills

---

- **Languages:** JavaScript, HTML, CSS, PHP
- **Frameworks & Libraries:** React.js, Redux, Node.js, Express.js, Bootstrap
- **Databases & APIs:** MongoDB, PostgreSQL, REST APIs, Stripe, JWT
- **Tools & Concepts:** Git, GitHub, Responsive Design, UI/UX, Authentication

## Experience

---

**Frontend Web Developer Intern** | Nuwebwave Technologies Pvt Ltd– Mumbai      **Aug 2024 – Present**

- Developed and maintained responsive, multi-page websites using **HTML, CSS, JavaScript**, and **Core PHP**, ensuring cross-browser compatibility and optimized performance.
- Collaborated with clients and design teams to translate requirements into intuitive **UI components**, improving **user experience, accessibility**, and **SEO standards**.
- Automated content workflows through **custom PHP scripting**, reducing manual tasks by **70%** and enhancing productivity across web management operations.

## Projects

---

**DevMindAI - AI Content Generation Platform**

[GitHub](#) | [Link](#)

- **Engineered a SaaS architecture** for a full-stack AI platform, delivering 6+ content tools (article generation, image editing, resume analysis) via **Google Gemini API, Clipdrop**, and **Cloudinary's AI** transformations.
- **Architected responsive dashboards** with **React.js** and scalable REST APIs using Node.js/Express, implementing **Clerk authentication** with tiered subscription plans (free/premium) and PostgreSQL data management.
- Developed a social community where users can **publish AI-generated** content, like/interact with others' posts, and discover trending creations – with real-time updates and moderation controls.

**Task Manager Web Application**

[GitHub](#) | [Link](#)

- Developed a full-stack **task management system** with secure **JWT-based authentication** and full CRUD functionality for user tasks.
- Built a **responsive React.js UI** using a modular, component-based architecture and optimized **MongoDB queries** for fast data retrieval.
- Implemented **role-based access control** using Express.js to separate admin and user privileges and ensure secure data handling.

**Portfolio Website**

[GitHub](#) | [Link](#)

- Developed a personal **portfolio website** using React.js to showcase projects, skills, and experience with a fully responsive, mobile-friendly UI.
- Implemented **client-side routing** using React Router and applied modern **UI/UX principles** for seamless navigation across devices
- Enhanced performance through **code-splitting and lazy loading**, resulting in faster load times and improved user experience
